Coding Challenges - Django

Task 62

Part 1 : User Profile Management

Robust user profile management system facilitating the creation and customization of personal profiles, including biographical information, skill sets, and contact details.

Part 2 : Portfolio Customization

Intuitive interfaces enabling users to tailor their portfolios with personalized content, including project showcases, work experience, education, and certifications.

Part 3 : Project Showcase

A visually appealing and interactive presentation of past projects, complete with detailed descriptions, images, and relevant links to provide visitors with a comprehensive understanding of the showcased work.
